STATE ROUTE LOOP 202 (SANTAN FREEWAY)
TO STATE ROUTE 387

PUBLIC SCOPING MEETING

The Arizona Department of Transportation (ADOT), Gila River Indian Community, and Maricopa Association of Governments (MAG) invite you to attend a public scoping meeting as part of an environmental study and design concept report for Interstate 10 (I-10) between State Route Loop 202 (Santan Freeway) (Loop 202) and State Route 387 (SR-387). The purpose of the study is to evaluate the impacts of expanding the capacity of I-10 from the Loop 202/Santan Freeway interchange to just south of the interchange at SR-387 to reduce traffic congestion of I-10 in the study area.

Public scoping is the first step of the National Environmental Policy Act (NEPA) environmental study process. The public scoping process provides the opportunity for the community to educate the study team about the corridor itself, as well as share issues or concerns the public may have about modifying I-10. The public scoping meetings will:

- Provide an overview of the I-10 corridor, the study's objectives, and the study's schedule to the public
- Obtain community feedback on opportunities, issues, or concerns related to the study area
- Solicit public input on potential corridor improvement alternatives

This public input will help ADOT, the Gila River Indian Community, and MAG select a Preferred Alternative, either a Build Alternative or No-Build ("do nothing") Alternative, for this section of I-10.
